

Leading Extraordinary Performance™

For senior executives ready to go beyond business as usual

In this programme, you learn how to create Potent Environments, expand your view of what's possible, and equip and mobilise your teams to deliver the extraordinary.

We don't transfer knowledge to you. Instead, you'll get lasting, life-altering personal insights that will empower you to lead and deliver results beyond what you currently know how to do. You'll engage in deep enquiries to release you from your current limitations. Your insights will be immediately valuable. Plus, they can't be 'unseen'; you'll create a lasting foundation for a new level of leadership.

3 x 2 days | Spring 2024

You'll mix with participants from many organisations, experiencing a rich set of perspectives.

Session #1 | 19–20 March

Preparing for breakthrough
